Scared for Your LIIFE is a return from the grave branch of the Long Island International Film Expo (LIIFE) specializing in the macabre world of short horror films. Scared for Your LIIFE is a collaborative effort between The Long Island Film/Television Foundation (LIIFE) and The Hauntsville Cryptcast horror podcast.

We're back for our seventh year with Scared for Your LIIFE 2023, featuring independent horror films from all around the world showcased at the Cinema Arts Centre in Huntington, NY. With an average of 20 short films accepted and showcased each year, we have crafted celebrated events that leave both our filmmakers and our audience coming back in the hoards each year. Last year's festival packed out our venue to full capacity, and we are sure this year will only bring even more fiends to our door!

The festival features: Frightening films, Custom trophies, live entertainment, costume contests, filmmaker Q&As and sponsors to die for!

Whether you want to spotlight your company, or simply want to be part of the film crowd,
